

Introducing the BW-Series Magnetic Backup Wrench,
a simple and effective solution to prevent nut rotation.

With its slim profile and mechanical operation,
it eliminates the need for hydraulics, improving safety and reducing the risk of
injuries.

The BW wrench is lightweight, hands-free, and easy to carry,
making it convenient for various applications.

Available in a wide range of sizes, it enhances workplace safety and productivity.

Choose the BW-Series Magnetic Backup Wrench for reliable nut rotation prevention
and increased efficiency.

Application: Oil and gas industry Military and defence departments Cosmetics and
daily products production
