Boost Efficiency and Versatility with Nut Runner Accessories, Side-Drive and STM Offset Link for Long Threaded Rods

Each type of low profile drive unit matches certain range of

hexagon cassettes and reducers to cover the maximum range of

nut sizes, which are tolerated by the torque value of the same drive unit.

When selecting the proper cassette for the application, pay attention to

the distance between the bolt and the wall side.

Application : Automotive manufacturing and repair
Petrochemical and chemical industry
Mining and resource development

Sample: Contact us for free samples
